LCN[®]

The 1450 Series cast aluminum closer was specially designed to deliver consistent, dependable, long-term performance in frequently-used, low-abusive traffic areas. The patent-pending LCN design, featuring the industry's most common hole pattern, is an excellent choice for a range of applications – from aftermarket replacement, to aluminum store fronts, to new construction projects – anywhere quality, reliability and value are important.

The 1450 Series also looks as good as it functions, with a standard slim line cover, optional full plastic cover or optional full metal cover, in six available standard finishes, as well as custom colors. The result is a great look with a long list of valuable features – plus LCN quality, engineering and service – all at a competitive price.
