Pocket Door Frames

ABS Super Duty Pocket Frame

The ABS Super Duty Pocket Frame picks up where the Standard Pocket leaves off. It features both horizontal and vertical aluminum stiffeners and heavy-duty ball bearing hardware. The track is fastened to the head jamb with threaded tee nuts for extra durability and smooth operation. It is available in both finger joint and solid pine and oak, fir and clear alder. The Super Duty Pocket Frame is ideal for applications where superior durability and rugged construction is required.

ABS Super Duty OSB Pocket Frame

The ABS Super Duty Pocket Frame with Oriented Stand Board Slats is the ultimate in pocket frame construction. It features all of the hardware and structural enhancements of the ABS Super Duty but also includes solid 3/4" x 24" OSB Stand Board slats on both sides. It includes the aluminum track and stiffeners, roller bearing hardware plus a 1/2" thick floorboard nailed flush to the bottom basket. This OSB Super Duty Pocket Frame is ideal for commercial or industrial applications or anywhere a tough and long lasting pocket frame is required. Available in 6/8, 7/0 and 8/0 high designs and in solid and finger joint pine, oak, fir and clear alder.
